Subject: West lake - Two Item

Jeff, FYI - USACE Commander received the attached letter from State Representative Bill Otto. The focus of the letter was the involvement of the St Louis Corps FUSRAP office. Attached is our Draft response which clearly communicates that EPA serves as the lead agency and that both Kansas City and St Louis will work together to support your mission.

Additionally, Sharon and I would like to have a call with you tomorrow - we are available anytime between noon and 3:30 - Only Sharon and I will be on the call from the Corps.

We would like to discuss potential actions that could be taken by EPA and USACE which could help reduce/address the congressional/public concerns on the project. One aspect would involve performing an independent review of project documents/decisions associated with West Lake.

Please let me know if you are available or if a alternate time is desired - thanks Scott

PS IG received by KC late last night and accepted this morning (copy attached).

MISSOURI HOUSE OF REPRESENTATIVES

Bill Otto

State Representative
District 70

March 26, 2014

LTG Thomas Bostick
HQ USACE, Attn: CECG
441 G Street NW
Washington, DC 20314

LTG Bostick,

I want to complement the work of your St. Louis Corps of Engineers on the FUSRAP cleanup projects taking place in the St. Louis metropolitan area. I am also requesting their involvement in the cleanup of the Bridgeton and West Lake Landfills in St. Louis County.

It is my understanding that the EPA Superfund Administrators are negotiating with the Kansas and St. Louis Corps. Your St. Louis staff has been extremely communicative, sensitive and responsive to the community's questions and concerns. My constituents have deep concerns over putting anyone other than our local St. Louis Corps in charge of this cleanup. Many local municipalities, including the City of Bridgeton, have passed resolutions requesting the St. Louis Corps be the lead agency for the investigation and resolution of the situation at these landfills. To do anything other than having the St. Louis Corps in charge of this project would lead to further and unnecessary stress for my constituents who are already traumatized by the events that have occurred.

I am looking forward to working with the St. Louis Corps of Engineers in this cleanup of the West Lake and Bridgeton Landfills.

Your cooperation and assistance in this matter is greatly appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill Otto", is written over the word "Sincerely,".

Bill Otto
State Representative
District 70

DEPARTMENT OF THE ARMY
U.S. ARMY CORPS OF ENGINEERS
441 G STREET, NW
WASHINGTON, DC 20314-1000

REPLY TO
ATTENTION OF

Directorate of Military Missions

The Honorable Bill Otto
Missouri House of Representatives
State Capitol, Room 116-2
201 West Capitol Avenue
Jefferson City, Missouri 65101-6806

Dear Mr. Otto:

Thank you for your letter dated March 26, 2014, concerning the U.S. Army Corps of Engineers support to the U.S. Environmental Protection Agency at the West Lake Landfill Superfund site in St. Louis County, Missouri. You mention constituent concerns about oversight of this project.

The U.S. Environmental Protection Agency, as the lead agency, is the federal entity responsible for the remediation at the West Lake Landfill Superfund site. The U.S. Environmental Protection Agency has an agreement with Republic Services, Inc., who will remediate the site under the oversight of the U.S. Environmental Protection Agency's Region VII.

The U.S. Environmental Protection Agency's Region VII has asked the Army Corps of Engineers, via an interagency agreement, to provide limited technical support to Region VII's oversight of Republic Services, Inc.'s contractors who will design and construct a subsurface barrier between the West Lake Landfill and the Bridgeton Landfill. The U.S. Environmental Protection Agency's Region VII has asked the Army Corps of Engineers to perform technical reviews of certain documents that will be developed by Republic Services, Inc.'s contractors, to place employees on site to act as Region VII's observers, and to support Region VII's interactions with the public. Region VII's request for support from the Army Corps of Engineers only relates to Republic Services, Inc.'s design and construction of the subsurface barrier. The Army Corps of Engineers would not have the ability to direct the contractors or Republic Services, Inc., or to speak on behalf of the U.S. Environmental Protection Agency. The U.S. Environmental Protection Agency's Region VII's interagency agreement with the Army Corps of Engineers specifically states that the U.S. Environmental Protection Agency remains the lead agency at the site.

The Army Corps of Engineers goal is to bring our best resources to bear on the potentially complex challenges at the site. We are in discussions with our St. Louis District, which has over 16 years of success addressing sites in its region with similar

contaminants under the Formerly Utilized Sites Remedial Action Program that is managed by the Army Corps of Engineers, and has earned the trust and respect of local interested parties. The Kansas City District is also involved and it has over 26 years of success supporting the U.S. Environmental Protection Agency's Superfund Program. Augmenting St. Louis District's expertise remediating radiological materials with Kansas City District's understanding of the U.S. Environmental Protection Agency's organization and Superfund Program will provide the community with a highly effective team.

I appreciate your interest in this project. If you have additional questions, please contact me or have your staff contact Mr. Greg Jordan, U.S. Army Corps of Engineers National Superfund Program Manager, at (202) 761-0414 .

Sincerely,

Lloyd C. Caldwell
Director of Military Missions
